EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenyon Schuett on 6/22/2005.

The application has been amended as follows:

In the specification:

On page 11, line 12, delete "medicated" and insert --mediated--.

On page 12, line 27, delete "(1990<" and insert --(1990)--.

On page 18, line 12, delete ", the contents of which are hereby incorporated by reference".

On page 19, line 7, delete "ost" and insert --post--.

On page 19, line 25, delete "the respective contents of which are hereby incorporated by reference".

On page 22, line 2, delete "stearoyl" and insert --stearyl--.

On page 24, line 17, delete "Tissue Culture of Soybeans" and insert --Single Gene Conversions--.

On page 26, line 19, after "the" and before "disclosures" insert "U.S. Patent".

In the claims:

Claims 23-29 have been canceled.

Art Unit: 1638

Claim 5 (currently amended) The tissue culture [according to] of claim 3, wherein said regenerable cells are from a plant part selected from the group consisting of [leaves, pollen, embryos, roots, root tips, anthers, pistils, flowers, seeds, pods, and stems] leaf, pollen, embryo, root, root tip, anther, pistil, flower, seed, pod, and stem.

In Claim 7, line 3, after “seed”, insert --wherein an F1 hybrid soybean seed is produced--.

In Claim 10, line 3, after “sterility”, insert --wherein a male sterile soybean plant is produced--.

In Claim 12, line 3, after “resistance”, insert --wherein an herbicide resistant soybean plant is produced--.

In Claim 14, line 2, after “transgene”, insert --that--, and after “herbicide”, insert --is--.

In Claim 15, line 3, after “resistance”, insert --wherein an insect resistant soybean plant is produced--.

In Claim 18, line 3, after “resistance”, insert --wherein a disease resistant soybean plant is produced--.

Claim 20 (currently amended) A method of producing a soybean plant with modified fatty acid metabolism or modified carbohydrate metabolism comprising transforming the soybean plant of claim 2 with a transgene encoding a protein selected from the group consisting of [stearyl-ACP desaturase,] fructosyltransferase, levansucrase, alpha-amylase, invertase and starch branching enzyme or the antisense of a stearyl-ACP desaturase gene wherein the transgene is expressed and the fatty acid metabolism or the carbohydrate metabolism of the soybean plant is modified.

REQUIREMENT OF ALLOWANCE UNDER 37 CFR §§ 1.801-1.809

The Deposit Statement in the response filed May 26, 2005 (page 8) is deemed in accordance with 37 CFR §§ 1.801-1.809. Therefore, no 35 USC § 112, first paragraph rejection has been maintained even though it is apparent that 0509235 soybean seed is essential to the claimed invention and that the deposit is necessary for an adequate written description and enablement for the claimed invention.

Since the application is otherwise in condition for allowance except for the needed deposit of 0509235 seed and since the Office has received written assurance that an acceptable deposit will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within THREE (3) MONTHS of the mail date of this letter (see 37 CFR § 1.809(c)).

Under 37 CFR 1.809(c)(d) an applicant is required to make a deposit of seed within three months after the mailing date of the Notice Of Allowance and Issue Fee Due. The period for satisfying this requirement is extendible under § 1.136, however, failure to make the needed deposit of seeds of 0509235 will result in abandonment of the application for failure to prosecute. The deposit statement in the specification, and all claims which refer to the instant seeds by name, must be amended to include the deposit accession number. In the instant application claims 1, 6 and 22 must be amended to recite the deposit accession number. These amendments should be submitted before the payment of the issue fee as an Amendment After Allowance under 37 CFR 1.312. If the amendment is received after the payment of the issue fee the same should be made under the provisions of 37 CFR 1.312(a) and a petition filed under 37 CFR 1.183 to waive the requirement of 37 CFR 1.312 that the amendment be filed before or with payment of the issue fee, that is, it must be accompanied by a fee in accordance with 37 CFR 1.17(i) and a petition which includes "a showing of good and sufficient reasons why the amendment is necessary and was not earlier presented and why justice requires waiver of the rule"). Finally, the statement of deposit in the specification shall contain:

- (1) The accession number for the deposit(s);
- (2) The date of the deposit(s);
- (3) A description of the deposited biological material sufficient to specifically identify and to permit examination; and
- (4) The name and address of the depository. (See 37 CFR 1.809(d)).
